## **PFAFF**<sup>®</sup>

## 5D<sup>™</sup> Embroidery Software Owner's Class

## Creating a Font Using 5D<sup>™</sup> QuickFont

Open 5D<sup>™</sup> Embroidery <sup>5</sup>, or 5D<sup>™</sup> Embroidery Extra <sup>5</sup> if you have it. If not, open 5D<sup>™</sup> QuickFont directly from your 5D<sup>™</sup> Embroidery System folder.

- 1. Click Accessories 🐓 and choose 5D<sup>™</sup> QuickFont <sup></sup>.
- 2. In Font, select Arial.
- 3. Style Regular.
- 4. Make sure Pfaff® is chosen for the Machine and creative vision<sup>TM</sup> is shown in the list.
- 5. Character Set Western 4 then click Next.
- 6. Select Stitch Type Fill + Satin Border.
- 7. Set the Output Size to 70 then click Preview.
- 8. Click Next and the Font will be generated.

- Under Machine, leave Send Font File and Save Font File selected. Make sure your creative vision<sup>™</sup> is connected to your computer via the USB cable.
- 10. Click Next.
- 11. On the Print Options page, you can print a catalog of the file or start a new font. Click Finish.
- 12. Your new font is now available on your creative vision<sup>™</sup> under Embroidery Fonts!
