

# Edit and create new stitches

## Three variations of "Leaves on a string"

- from Canada, Betty Biberdorf -

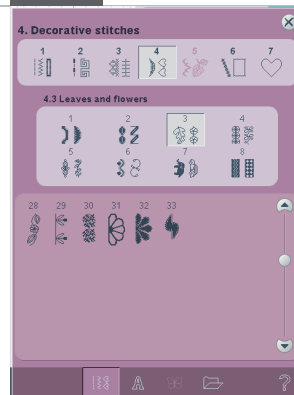

- 1 To open the Stitch Creator program, touch on Stitch Creator icon in the task bar.

- 2 To bring up a stitch, touch the Selection Menu.

- 3 Touch....
  - category 4; Decorative stitches
  - subcategory 3; Leaves and Flowers
  - stitch number 28

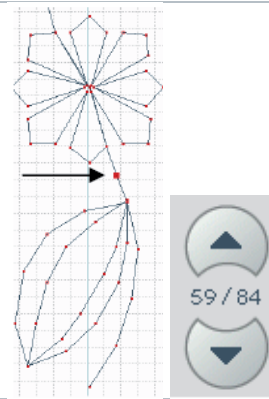

- 4 We are going to remove the center flower from this stitch.

Touch Multi-select icon to deselect pattern.

5

Touch the stitch between the leaf and flower or use the marking arrows to scroll up to stitch #59/84.

6

To select the whole flower, touch Multi-select to activate it.

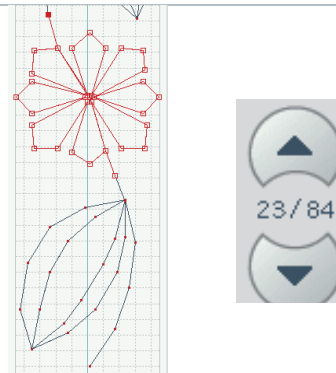

(Make sure the button is pressed in.)

7

Touch the stitch just above the flower or scroll up with the marking arrows until you get to stitch #23/84.

Notice:  
Just the flower is marked (red)

8

Touch delete icon

9

Your screen should now look like this.

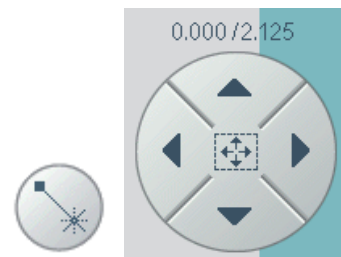

10

We need to add some stiches to fine tune our stitch pattern.

Touch new stitch point 2 times.

Move the marked stitch #24/49 by drag and drop on screen or use the wheel to fine tune. Set the coordinates to 0.000/2.125

- 11 Touch Multi-select icon to activate.  
Scroll down to 49/49 or touch the last stitch point.

- 12 Fine tune.....  
Set the coordinates to 0.000/0.500

- 13 Touch Multi-select icon to deselect.  
Use the marking arrow to scroll up to #23/49.  
Move this stitch point to -1.500/1.625.

- 14 Select stitch #22.  
Move this stitch to -2.500/2.500

- 15 Your stitch should now look like this.

- 16 To get a full view of the stitch close Stitch Creator, by touching the Stitch Creator icon in the task bar.

**17** To save the stitch; touch the file folder in the options bar.

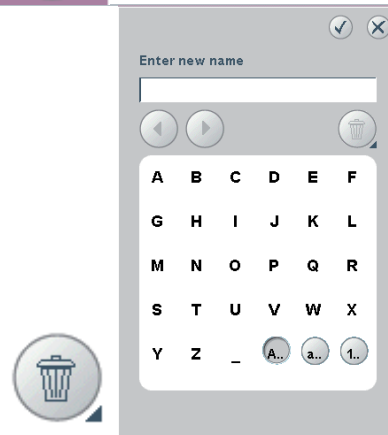

**18** Touch the open folder.

**19** Touch rename.

**20** Delete the default name (NewStitch.spx) a long touch on the Delete icon.  
Type in a new name for your stitch:  
"2leaves"

**21** OK

**22** OK

Unlimited stitch possibilities on your Pfaff creative vision™ .  
*The more you want - the more you get!*

**23** Open Stitch Creator again.

- 24 Touch the stitch you just added (just before the last leaf) or use the marking arrow to scroll to stitch #24/49.

- 25 Touch Multiselect icon to activate.

- 26 Touch or scroll up to stitch #2 to highlight the first leaf.

- 27 Touch mirror end to end.

- 28 To get a full view of the stitch close Stitch Creator, by touching the Stitch Creator icon in the task bar.

- 29 Your stitch should now look like this.  
Save your new stitch as 2leaves\_mirror.  
(See point 17-21)

- 30 If you would like you can go back into Stitch Creator and fine tune the stitch points between the leaves, i.e stitch points 3, 4 and 5.  
When you are happy with your manipulated stitch save it as 2leaves\_mirror. It will overwrite the original you created.

Unlimited stitch possibilities on your PFAFF™ creative vision™ .

*The more you want - the more you get!*

**31** Open Stitch Creator again.

**32** To select the whole second leaf, touch Multi-select to activate it.  
(Make sure the button is pressed in.)

Touch the last stitch point #49/49

**33** Use the marking arrows to select the last leaf - scroll up to stitch point #25/49.

**34** Touch delete.

**35** Save as scroll\_leaf.  
(See point 17-21)

Don't forget you can insert stitches - either built-in stitches or stitches you have created.

*The more you want - the more you get!*
