

Free-motion sewing

- 1 Task bar.
Settings menu

- 2 There are two different free-motion modes. You can select to set your machine for either Sensormatic free-motion or Spring foot free-motion.

- 3 Touch the **Sensormatic free-motion** to set your presser foot to float over the fabric you wish to stipple.

When sewing at a low speed the presser foot will raise and lower with each stitch to hold the fabric on the stitch plate while a stitch is being formed. At a higher speed, the presser foot floats over the fabric when sewing.

- 4 The Sensormatic free-motion mode is used together with the 6A presser foot that is included with the machine.

With the Sensormatic free-motion mode it's easy to get even stitches and a very nice result.

- 5 If you want to change the presser foot height in Sensormatic free-motion mode, long touch on the icon. This will bring up a pop-up to set the presser-foot height.

-
- 6** Touch the plus to raise the presser foot and the minus to lower the presser foot.
- 
-
- 7** Touch OK to confirm your Sensormatic free-motion presser foot height.
- 
-
- 8** Touch OK to close the settings menu.
- 
-
- 9** When the machine is set for free-motion sewing the feed dogs are lowered automatically.
-
- 10** The machine settings field now shows that you have set your machine for Sensormatic free-motion sewing.
- 
-
- Select any of the built in stitches and sew.
- 11** Most free-motion sewing is stitched with a straight stitch or with a zigzag stitch. However all stitches can be sewn in free-motion mode. Your movement of the fabric will determine how the stitch will look.
-
- 12** Touch the **Spring foot free-motion** to set your presser foot “jump” on the fabric while sewing.
- 
-
- The Spring foot free-motion raises and lowers the presser foot with each stitch to hold the fabric on the stitch plate while a stitch is being formed.
- 13** The Spring foot free-motion mode is used together with the optional Open-Toe Free-motion Foot.
- The Spring foot free-motion mode is especially good to use when sewing contemporary quilts with different fabric heights.
-
- 14** Touch OK to close the settings menu.
- 
-
- 15** When the machine is set for free-motion sewing the feed dogs are lowered automatically.
-

-
- 16** The machine settings field now shows that you have set your machine for Spring foot free-motion sewing.

Select any of the built in stitches and sew Spring foot free-motion.

- 17** Most free-motion sewing is stitched with a straight stitch or with a zigzag stitch. However all stitches can be sewn in free-motion mode. Your movement of the fabric will determine how the stitch will look like.
