PFAFF®
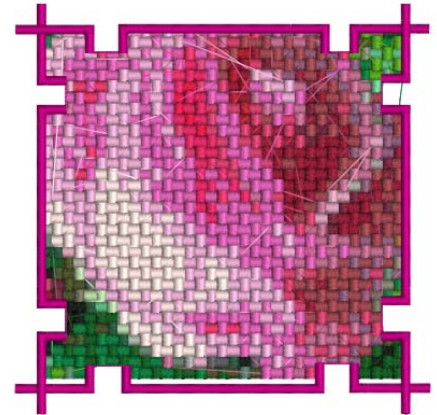

Demo 5 – 5D™ PortraitStitch

Create remarkable stitched photographs in 5D™ PortraitStitch (only available in 5D™ Suite). These realistic depictions will be beautiful heirlooms for years to come.

- Open 5D™ PortraitStitch 🖼.
- Click View Picture 🖼 then Browse ⋯ to Documents\5DEmbroidery\Samples\ Portrait\Pics then click OK.
- Select PinkRoseCropPetalAdjust then close the viewer.
- Follow the wizard to the Crop Picture window. Crop closer into the rose. Next.
- Continue through the wizard until you get to the Stitch Wizard. Choose Create Color Tile Embroidery then click Next.
- Choose the Design Size, Square and Large. Next.
- Continue through the Stitch Wizard to the Reduce Colors screen.
- Choose the Square tiles and change the size to 4 mm. Next.
- Go into the options and change the Density to 5. OK. Next.
- Choose No Frame or Border. Next then Finish.
- Click Select a Frame (if desired). On the right top of the page.
- Choose Classical 3. Column 1 Row 1.
- Change the Thread Color to medium purple.
- Apply.
